..... **KEY MACHINES**

Designed to handle keys with large bows or long blades, the 040 is an automatic machine that can be used manually when needed. The Super Jaw 2 vises can be set four different ways to hold virtually any key. A very versatile key machine.

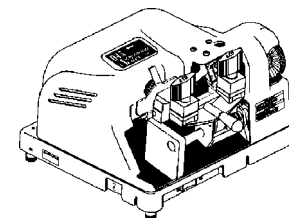

040

This lever controlled semi-automatic machine cuts accurate duplicate keys with ease! A typical single sided key can be cut in just seven seconds. Extra wide vise jaw spacing accommodates keys with large bows and long blades. Dial type depth adjustment system, 4-way vise jaws and much more. Compatible with most generators/Inverters 500 watt output and higher.

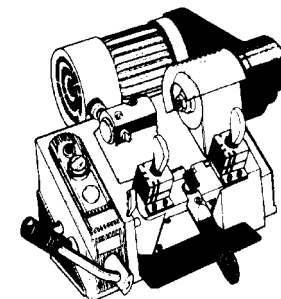

044

Accurate, economical, and easy to use, the 045 is the perfect basic duplicator for virtually any store or shop. Wide vise jaw spacing, dial type depth adjustment, and simple operation are just a few reasons that the 045 is the manual duplicator of choice for so many! Compatible with most generators/Inverters 500 watt output and higher.

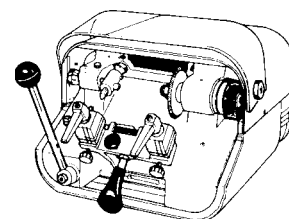

045

A sturdy machine designed to deliver years of service. The Bravo has 4-way vise jaws, twin carriage shafts, a safety release carriage, and a micrometer adjustable trace guide. Now equipped with a CU50A cutter for increased duplicating capability.

BRAVO II

Remarkable speed and accuracy in a superbly crafted machine. Cuts single sided keys in as little as five seconds! The vise jaws are engineered to grip even the most troublesome double-sided auto keys. Loaded with features every user will appreciate.

..... **KEY MACHINES**

The ultimate "card-type" code machine! The Universal II allows the operator to switch from originating keys for one lock system to another in seconds. Special performance features include: "dial-type" depth adjustment for precise machine calibration, wide key alignment gauge for accurately positioning key blanks (especially double-sided types), and "EZ View" code cards with special space and depth markings for faster, more precise operation. Supplied with two cutters and 140+ code cards covering a broad range of commercial and auto lock systems.
